#### CASH, CHICAGO.

Chicago howled and ramped about fo the World's Fair. She got it by partisan voting over a worthier, wealthier city. But she did not realize what she was gotting. Since she has been in quasi possession of the Fair the realization that it was not an idle-handed honor has been borne in upon the flamboyant town.

To her credit, be it said, she has no been slow to crawi when she apprehended the price she had to pay for the privilege of a World's Fair. The champion of the Windy City in Chicago admits, dis-

#### HELP THEM. The auggestion of women inspectors

for women workers in factories, mills, and all large hives of feminine labor, is in perfect keeping with the best humanitarian feeting of the hour. Man is awakening to a keen sense of the exquisite beauty, as well as the imperative need of a bond of union, with his fellows. ### AH, NO: MES. PLACE.

The case against Sheriff FLACE is one in which the public is concerned vitally. The public machinery of justice has been wilfully tampered with, and until every guilty soul is haled before right law and shall have received what the law adjudges the public has no right, and certainly no wish, to drop the case.

Woman-like, wife-like, mother-like, the poor woman who has been wronged by him who swore to cherish, honor and cleave to her, and who has seen the man ahe called son join in an unnatural conspiracy against her, now would fain condone the offense of these men. Mrs. Frack may forgive, she cannot acquit.

## DIGNITY TO THE WINDS.

Orders have been given by Secretary Wishou for the creation of buildings on Liberty Island with a capacity for abeltering 8,000 emigrants. It is not hard to ney how this tiny island will look with these architectural barnacles clustering shout the base of the Statue of Liberty. But this is not an Administration to be moved by a sense of dignity.
